

Jody Johnson

Candidate for the UTA Board of Directors

I've been in the used truck industry now for 35 years. I look at the UTA as a way to give back to an industry that has provided my family with a great life. I currently am the used truck manager for Westrux International in Los Angeles. We need more representation from the west coast; California is the country's biggest used truck market and what happens here affects every one of us in this business. Used trucks is a family business for us, my wife, Jennifer owns one of the largest prorated licensing agencies in California.

Thanks for your vote.
