

Anthony Gansle, Peterbilt Director of Sales Administration at Peterbilt Motors, is passionate about both the product he represents and the used truck industry that's been his home since early in his career. Anthony has spent 25 years in the trucking industry---from engineer to marketing used trucks to marketing and selling trucks.

Anthony has been an enthusiastic UTA member for 4 years, and credits the association for providing him with colleagues, mentors and friends. Anthony's contributions to the UTA and Used Truck Industry includes increasing Peterbilt's contributions to the UTA through sponsorships and other support, starting the Red Oval CPO program, education and training efforts both with the UTA, Peterbilt dealers and Independents and opening other PACCAR Divisions up to the UTA.

Anthony values family and has often referred to the UTA as his second family, always willing to help when needed. He's excited to extend that attitude to serving on the UTA board.

Anthony and his family enjoy life in Denton, Texas where he and his wife, Diana, enjoy spending time with their boys Joshua and Jacob.
