Our team is responsible for the used truck business within the Volvo and Mack Trucks organizations in North America. We handle the used trucks from “cradle to grave” by quoting residual values and trades on new truck transactions then managing the inbound portfolio of assets. As a licensed truck dealer, we sell to a network of Volvo and Mack “Premium Used Truck Dealers” as well as a large group of UTA dealers. As a longtime UTA member, we believe in the UTA Code of Ethics: Honesty, Integrity, Professionalism, Value, Excellence, Continuous Improvement, Keeping Promises, Complete Satisfaction, Relationships.
