

## **Jeremi Guditis**

**Present Position:** Peterbilt Motor Company, Used Truck Sales Manager

**UTA Experience:** My time in the UTA has given me the opportunity to meet some great people and the chance to learn from the wealth of knowledge that the members bring. I think there are a lot of things that we are doing right but as always there is still room for improvement, and I hope to continue those efforts and help to drive some change and improvements.

### **Professional Background**

I started my career in the trucking industry 18 years ago, when I started as an Assembly Specialist in the Peterbilt Denton Plant. I worked in the plant for 14 years and had the benefit of working my way through the plant in various jobs such as trimming sleepers, painting chassis/trucks, running paint robots and quality assurance before stepping into management.

While in management I got to manage teams in Cab Trim, Quality Assurance, Paint and Continuous Improvement before heading over to the Division side of the business. I started my job in the Used Truck side just over two years ago and have hit the ground running ever since then. I enjoy taking my experience from the plant and seeing it pay off on the used side of the business. It is not too often that you can have a job where you get to see the start of the business and then see it all the way through to the secondary market. I have enjoyed my time in the used side and hope to stay in this role for a long time.

### **Personal Background**

As far as my life outside of work and the UTA, my family keeps me busy. I have been married for almost 14 years to the lovely AnnByron Guditis. Yes, her first name is AnnByron, not Ann, but she also goes by AB. We have three amazing kids (20, 12, and 10) that we invest a lot of time into and pray and hope that we are raising them right. AnnByron and myself like to think of ourselves as Glam Hippies (her more than me) as we are into the organic and holistic side of things and definitely dabble in wine tasting. We are not sommeliers, but we can definitely send you in the right direction when it comes to red wines. As far as hobbies, we really do not have one that leads the way but like most, we enjoy anything that gives our family a new experience or lasting memories.
