

Aisha Smith – Board Nominee 2021

817-602-3902

Irving, TX

My name is Aisha Smith, a BMO Transportation Finance Portfolio Remarketing Manager out of Irving, TX. I am a 16-year employee of the company with the last ten years focused on the used truck market. I currently manage a large portfolio of transportation assets from the repair/refurbishment stage to disposition. Remarketing equipment using inside and outside sales channels, providing market analysis and research across the transportation industry.

I reach a wide array of customers because of the range of our financing efforts, as such I have a multitude of information points from different industries and buyer perspectives and or needs. With a background in Organizational Leadership, I believe I can bring some strategic insights to the UTA from various perspectives.

I have a passion for helping others. In 2019 I cofounded a non-profit organization that focuses on skill enhancement, entrepreneurship, and underemployment in underserved communities. My hobbies include travel planning for families, giving back to my local community through volunteer opportunities, and spending time with my family on the beach.

I enjoy closing deals and making new friends along the way. The thrill of obtaining my full asking price keeps me coming back to work everyday! I would love to bring my enthusiasm, diversity, and passion for helping others to the UTA as a board member, for this reason I am asking for your vote.
