My name is Chad and I have been in the used truck industry for over 14 years now. I spent my first 12+ years with Arrow Truck sales; 11 of those years as a Branch Manager in Cincinnati and Minneapolis. In November of 2019 I made the decision to join MHC as the Vice President of the Truck Source division. In these roles I have had the benefit of working in used truck only environments. Our business is unique, fun, and challenging...but it's the most satisfying and enjoyable job I have ever had. The people you meet and work with in the used truck industry are some of the most outgoing, fun and entertaining you will ever meet. There are rarely dull moments and always someone to talk to about our business. I feel like I could be a contributor to the UTA Board of Directors for a few reasons. Although I have not been a consistent member of the UTA, I have spent my career around the association. I am now looking to be more actively involved because I love our business and want to be a part of growing the association and helping shape the future of the UTA. I have contacts in the used truck industry all over the country and want to not only expand my network but utilize that network to help bring effectual change where it is needed. I hope you will consider me for this position and feel free to reach out to me anytime.

On the personal side – I have been a resident of Cincinnati since 1994 – with a brief stint in Minneapolis from 2009-2012. I am the proud father of two kids. My son Ethan is a senior at The Ohio State University and my daughter is entering her freshman year at The University of Memphis. I recently remarried to my beautiful wife Michelle and am also now the proud stepfather to Owen, a senior in high school, Grayson 6th grade, and Raegan 4th grade. I was born and raised in Germany, my parents worked for the Department of Defense and spent over 30 years on overseas assignments. After graduating high school in Germany, I attended college in Georgia before joining the US Army. My service included two deployments to Operations Desert Storm and Determined Resolve. I am active in my local American Legion as well as my local VFW. After my service time, I spent time in a few jobs before spending 7 years with a GM/Isuzu Joint Venture as the Quality Director for the Duramax Diesel factory in Dayton, Ohio. I decided to get my real estate license in 2006 and that led me to meeting a friend who was in the used truck business with Arrow. The rest is history. I took a job that I thought I would do for a few months, a year max - and was hooked. I've been in the business ever since.
